

Flap x bStocks Booster Campaign

A. Campaign Overview

The **Flap x bStocks Booster Campaign** shares a **100,000 USDC** reward pool among Binance Wallet users who complete simple social, buying, and trading tasks with tokenized stocks (bStocks) on BNB Chain.

Reward pool

Who can join

- You need a Binance account with Binance Wallet (MPC Wallet) set up on the Binance mobile app.
- You must hold **at least 2 Binance Alpha Points** to join.
- Joining the campaign **deducts 2 Alpha Points**. Points are spent when you tap Join, not when you complete tasks.

Campaign tasks:

CAMPAIGN TASK

Task	What you need to do
Social	Follow @bstocksfinance on X
Buy	Buy at least \$100 worth of bStocks in Binance Wallet, using any token.

Task	What you need to do
Social	Follow @flapdotsh on X
Trade	Buy meme tokens paired with Stocks on Flap, spending a cumulative \$10 in BNB.

Important notes

- Complete every task with the **same Binance Wallet** you used to join. Trades from other wallets cannot be linked to your campaign entry.
 - Each task rewards up to **10,000 eligible winners**, who share the reward pool equally (5 USDC each).
 - For the Flap Trade task, only purchases of meme tokens paired with bStocks, paid with BNB count.
 - **Campaign period:** 19 October 2026, 7:00 AM (UTC) to 2 November 2026, 11:59 PM (UTC). Only trades made within this period count; trades on or after 3 November 2026, 12:00 AM (UTC) are not counted. Reward distribution date: [TBU].
 - All rewards are subject to the official campaign rules on the Binance Wallet campaign page, which take precedence over this guide.
-

B. Project Introduction

Flap is a token launchpad on BNB Chain where meme tokens can be paired with bStocks, which are tokenized securities that track U.S. stocks and ETFs. In this campaign, you buy meme tokens paired with bStocks on Flap, paying with BNB.

What is Flap?

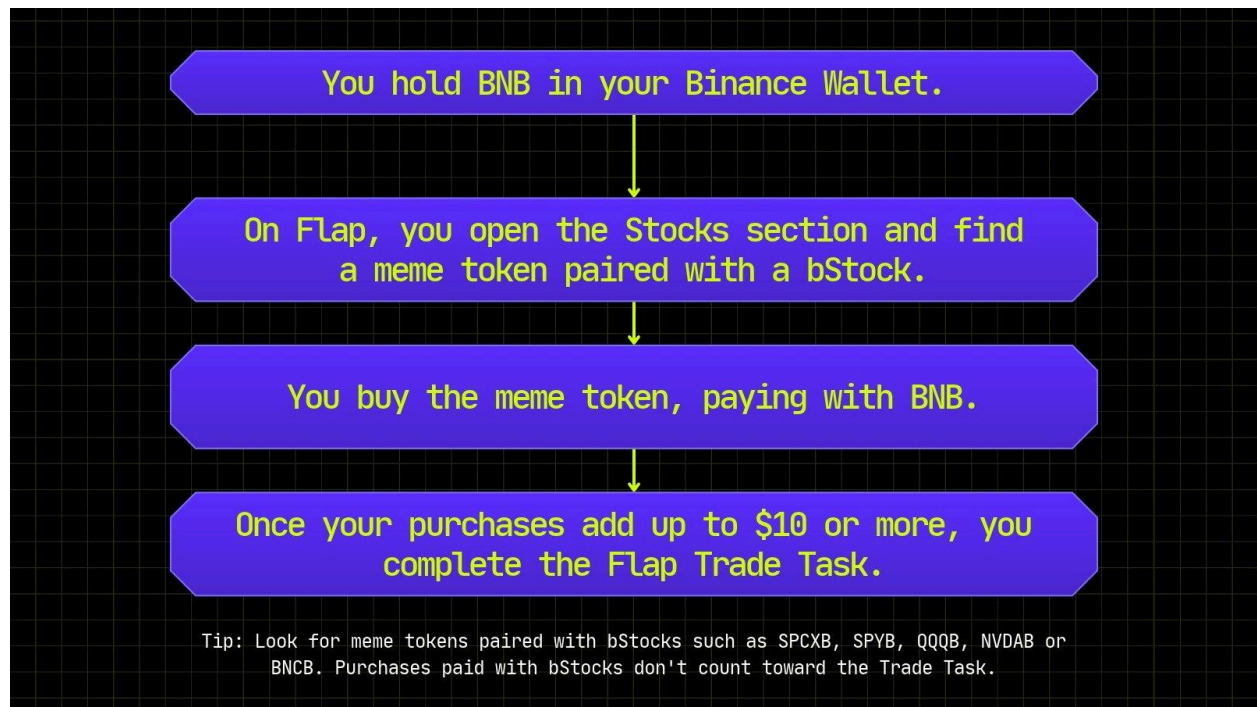

[Flap](#) is a programmable token launch infrastructure on BNB Chain. Creators launch tokens (often meme tokens) and choose which asset the token trades against. That asset is called the **Quote Token**. Flap supports bStocks and [customizable Quote Tokens](#), so a meme token can be priced in a bStock such as \$QQQB or \$SPCXB.

What is bStocks?

[bStocks](#) are tokenized U.S. stocks and ETFs issued as BEP-20 tokens on BNB Chain. Each token is backed 1:1 by a real share held with a regulated custodian. Ticker names end in **B**, for example \$NVDAB (NVIDIA), \$SPYB (S&P 500 ETF) or \$QQQB (Nasdaq-100 ETF).

- **Trade 24/7.** bStocks move onchain around the clock, including weekends.
- **Mint and redeem.** Eligible users can convert stock holdings into bStocks ("mint") and back.
- **Use them onchain.** You can withdraw bStocks to your Binance Wallet and use them in BNB Chain apps such as Flap.

How they work together:

C. Step-by-Step Guide

The full journey takes about 10-15 minutes: open Booster in Binance Wallet, join the campaign, go to Flap, and trade at least \$10 worth of tokens paired with bStocks.

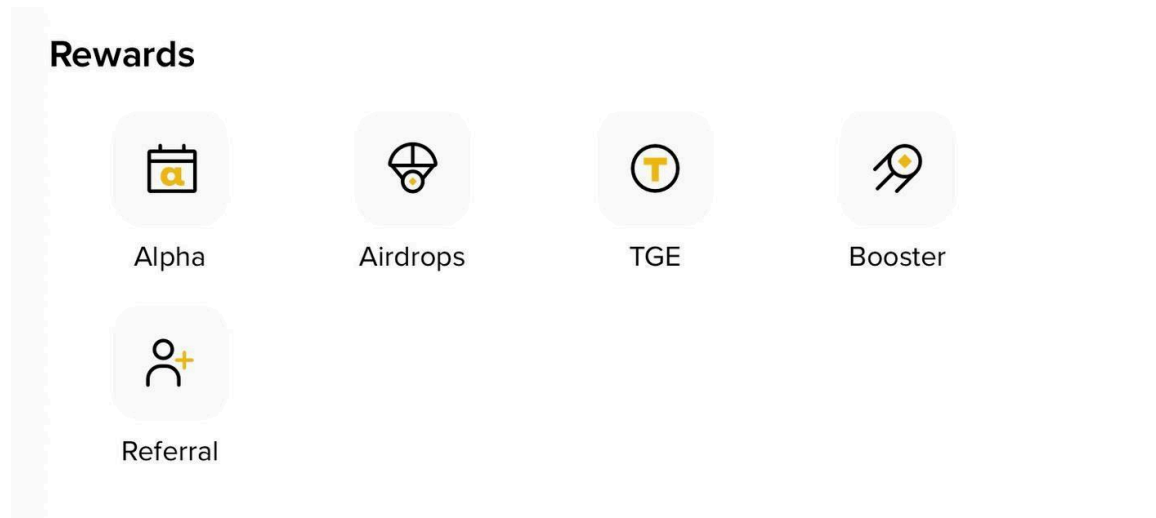

Each task qualifies for its own reward, so you can complete any or all of them. This guide walks through the social tasks and the Flap trading task; the bStocks Buy task is listed on the campaign page.

Before you start, have ready:

- The latest version of the Binance mobile app
- At least 2 Binance Alpha Points
- An X (Twitter) account for the social tasks
- A small amount of **BNB** in your Binance Wallet to pay network (gas) fees
- At least \$10 in BNB to buy meme tokens on Flap.

Step 1 - Find and Join the Campaign in Booster

1. In Binance Wallet, scroll down to the **Rewards** section and tap **Booster**.

2. On the Booster page, find the **Flap x bStocks Booster** campaign card and tap it to open the campaign page.

Joined

0 >

3. Read the campaign rules and reward details.
4. Tap **Join** and confirm that **2 Alpha Points** will be deducted.
5. Once joined, the campaign page shows your task list for bStocks and Flap.

Can't join? Check your Alpha Points balance (Binance app → Alpha Events). You need at least 2 points at the moment you tap Join.

Step 2 - Complete the Social Tasks

1. On the campaign page, tap the bStocks **Follow on X** task → Follow [@bstocksfinance](https://twitter.com/bstocksfinance).
2. Return to Binance Wallet and tap **Verify** (you may be asked to link your X account first).

3. Repeat for the Flap **Follow on X** task: follow [@flapdotsh](https://twitter.com/flapdotsh), then tap **Verify**.

Step 3 - Go to Flap to Trade

1. From the campaign page, go to **Rewards** → **Booster** and tap the **campaign banner**. You'll be taken directly to the Flap website inside Binance Wallet.
2. **First visit only:** tap **Connect Wallet**, choose **Binance Wallet**, and tap **Connect** in the pop-up. Make sure **BNB Chain** is selected.
3. Once your wallet address shows in the top corner of Flap, open the **Stocks** section.

Step 4 - Buy Meme Tokens Paired with bStocks

4.1 Find tokens paired with bStocks

1. Tap the **filter (funnel icon)** on the right.
2. Filter for tokens paired with eligible bStocks: e.g., **\$SPCXB**, **\$SPYB**, **\$QQQB**, **\$NVDAB** or **\$BNCB**.
3. Tap a token to open its page.
4. Before buying, review the token's chart, holders and contract details. Meme tokens are highly volatile.

4.2 Enter the amount

1. On the token page, tap **Buy**.
2. Choose BNB as the asset you pay with.
3. Enter the amount. The \$10 is cumulative, so several smaller trades count as long as they add up to at least \$10.
4. Check the estimated amount of meme tokens you will receive and the slippage setting.

Important: Trades count from 19 October 2026, 7:00 AM (UTC) to 2 November 2026, 11:59 PM (UTC).

4.3 Approve and confirm

1. Paying with BNB doesn't need approval.
2. Tap **Buy** (or **Swap**) and confirm the transaction in the Binance Wallet pop-up.
3. Wait a few seconds for BNB Chain confirmation.

4.4 Confirm the trade went through

1. Look for the **success** message on Flap.
2. Open Binance Wallet → **Assets**. The meme token should appear in your list, and your balance of the asset you paid with should be lower.
3. Optionally, tap the transaction to open it on [BscScan](#) and check the status says **Success**.

Step 5 - Check Task Completion and Claim Rewards

1. Return to the campaign page (Rewards → Booster → bStocks campaign).
2. Check each task's status. Completed tasks show a tick or **Completed**. Onchain tasks can take some time to update.
3. To review your trades, open Binance Wallet → **History** (or tap a token → **Activity**).
4. Reward eligibility and results will be shown on the campaign page after the campaign ends. Eligible users will need to claim their rewards in the Binance Wallet Reward Center.

Tip: The top of the Booster page shows **My Total Rewards** and how many campaigns you have **Joined**, so you can track your rewards there too.

D. FAQs

1. **Who can join the campaign?**
Any Binance Wallet user with at least 2 Binance Alpha Points can join, subject to the official campaign rules and regional eligibility for bStocks.
2. **Where do I find the campaign?**
In Binance Wallet, scroll to **Rewards** and tap **Booster**. Then tap the Flap x bStocks × Booster campaign card.
3. **Are my 2 Alpha Points refunded if I don't finish the tasks?**
If there is no reward after campaign finish, 2 alpha points will be refunded within 48hours.
4. **Do I have to complete every task?**
No. Each task qualifies you for its own reward. You can choose to complete either one or both.

5. **How much can I earn from the tasks?**

Each task rewards up to 10,000 eligible winners, who share the reward pool equally (5 USDC each).

6. **How do I get to Flap?**

Go to **Rewards** → **Booster** and tap the campaign banner. You'll be taken directly to the Flap website inside Binance Wallet.

7. **Which tokens count for the Flap Trade task?**

BNB. Purchases paid with bStocks or any other token don't count toward the Trade task.

8. **Can I split the \$10 across several trades?**

Yes. The \$10 is cumulative, so several smaller purchases count as long as their combined value reaches at least \$10 in BNB.

9. **Why can't I find a meme token paired with bStocks?**

Use the filter (funnel icon) in Flap's Stocks section. Not every bStock has meme tokens launched on Flap yet, so try another pair.

10. **Do I need BNB?**

Yes. BNB pays the network (gas) fees for approvals, and trades on BNB Chain. A small amount is enough.

11. **Can I use a different wallet for some tasks?**

No. Complete every task with the same Binance Wallet you used to join. Activity from other wallets cannot be linked to your campaign entry.

12. **My trade succeeded but the task still shows incomplete. What should I do?**

Onchain tasks can take some time to update. Check that you traded from the same Binance Wallet you joined with. If it still doesn't update, contact Binance Customer Support with your transaction hash.

13. **When and where will I receive rewards?**

Results will be shown on the campaign page after the campaign ends. Eligible users will need to claim their rewards in the Binance Wallet Reward Center.

Risk Disclaimer

- Please do your own research, make independent investment decisions, and take full responsibility for your own capital. This campaign does not constitute investment advice.
- Meme tokens are highly volatile and can lose most or all of their value quickly.
- bStocks track the price of the underlying stocks and ETFs, so their value can go down as well as up.
- Always check that you are on the official Flap site before connecting your wallet. Never connect through links shared in DMs or unofficial groups.
- bStocks may not be available in all regions. Check eligibility before participating.
